## VISIBILITY AND CONTROL FROM EVERY ANGLE

Now more than ever, executives need to be involved in and understand the operation of their risk management and compliance processes.

Ineffective risk management, breaches of regulatory compliance and corporate governance concerns can expose you to financial and legal liabilities as well as damage to your brand and reputation.

Gaining visibility and control over risk is crucial to protecting the viability of your business and its stakeholders.

RISK360® is a world-class solution that is used globally to facilitate, streamline and measure risk management, regulatory compliance and sustainable corporate governance. It provides visibility, control and accountability, increasing the confidence of all business stakeholders.

### ABOUT US

RISK360 Software Pty Ltd specialises in the development and implementation of risk management software solutions and services delivered over the Internet.

The company is led by a management team with over 20 years experience in producing and deploying successful technology solutions and services to the insurance industry.

RISK360® was initially developed by Touchmark Software Pty Ltd to support the ePolicy® insurance underwriting system and its unique concept of highly managed risks.

The success of RISK360® in the demanding environment of the highly regulated insurance industry led to the formation of RISK360 Software Pty Ltd in 2005.
