Technology that means business

When it comes to technology, good help is hard to find. If you're a small business or independent professional, finding the right long-term partner can be even tougher.

That's where XCentral can help. We deliver serious business technology solutions tailored to match your work style and lifestyle.

No confusing jargon or technical talk, just a clear translation of your needs into technology solutions that work for you and your business.

what we do
From internet, email and mobile business to networking, security and home automation.

A big business approach to small business IT

From design to implementation and support, XCentral specialises in delivering the quality solutions you need to run a successful business.

We start by taking the time to understand your needs before custom designing an efficient and cost-effective IT solution to match. We look after you personally with a smart and professional team that you can trust 100% to take care of everything:

- **Hardware & software** - We can select and buy the right gear for you with a range of smart investment options.
- **Internet & email** - Get connected with fast, cost-effective and reliable email, internet and website services.
- **Mobile business** - Be fully productive from anywhere, anytime.
- **Networking** - Get all your technology talking to each other for a faster, simpler and more efficient business.
- **Security & backups** - Business-grade protection from spam, viruses, hackers and disasters.
- **Consulting** - Custom designed solutions to help you get the most out of your technology investment.
- **Collaboration** - Share ideas, organise information and get more done from anywhere.

> I never realised how heavily I relied on technology until I went out on my own. Having XCentral's fast, reliable IT support on call is critical to what I do every day.
